Indian Land Wastewater Treatment Plant Lancaster County Water & Sewer District, South Carolina

HUA completed the evaluation, planning, engineering design, permitting, and construction management and inspection of the Indian Land Wastewater Treatment Plant and Collection System, a 2 MGD tertiary treatment facility and collection system, which included over 45,000 LF of 10 inch to 16 inch pressurized sewer lines. The project, funded by EDA and CDBG, involved careful coordination and communication with the public and funding agencies, archaeological, biological and other regulatory and permitting agencies.
